

Specialist in the

Manufacturing of Mild Steel Pipes

PIPE TECHNOLOGY SYSTEM SDN BHD

(A Member of JAKS GROUP)

OUR VISION

“Our vision is to become a global leader in the water engineering and infrastructure industry by providing comprehensive solutions in design, manufacturing, construction, distribution and placement of our products.”

OUR MISSIONS

- To provide total customer satisfaction by ensuring quality products and services on a timely basis.
- To provide integrated solutions with technologies and information systems, and improved operational efficiencies so as to ensure sustainable and competitive advantages.
- To build a dynamic, innovative and competent workforce through teamwork and commitment to excellence.
- To foster strategic alliances with our suppliers, business associates and customers to create business growth and expansion.
- To optimize shareholders' wealth by continuously exploring new business opportunities while strengthening and expanding current core business with good corporate governance and prudent risk management.
- To discharge our corporate responsibilities to society by participating in community development and adopting environmentally friendly practices.

ABOUT PIPETEC

Specialist in the Manufacturing of Mild Steel Pipes

Incorporated in 1992, Pipe Technology System (Pipetec) specialises in the manufacturing of mild steel pipes and fittings such as bends, tees, joining materials and many others.

With a high production capacity exceeding 30,000 tonnes/year, we are able to deliver consistent supplies of high quality products for big scale projects timely at a competitive price. We currently supply to major water engineering development and construction projects carried out by both the government and private sectors.

We are committed to meet standard specifications and also cater to customised orders. We owe this to our team of management personnel and skilled operators utilising sophisticated automated equipments, well-monitored process control techniques, updated knowledge and consistent display of quality workmanship.

At Pipetec, quality is the keyword. We are registered with National Quality Assurance Limited and accredited with BS EN ISO 9001: 2000, which is a testament to our ability to consistently provide products that meet customer satisfaction and international regulatory requirements. In addition, our products are made to BS 534 & BS 3601 standards and are certified by IKRAM Quality & Certification Institute (IQCI).

With our uncompromising attitude to quality, progressive use of technology, as well as experienced and multi-disciplinary team of professionals, we have emerged as one of the most reliable and respected players in the industry.

OUR MANUFACTURING PROCESS

It is a matter of pride that we at Pipetec emphasise on quality at each and every step of our manufacturing process. Besides using the best quality raw material, strict quality control measures are taken throughout each process to ensure all products are free from defect and meet international standards in terms of quality, design and finish.

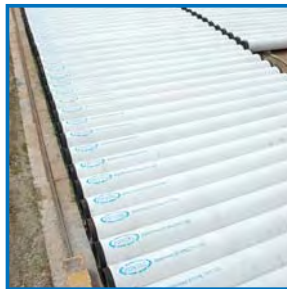

1. Steel Coil Receiving

2. Ultrasonic Thickness Checking

3. Decoiling

11. Curing

10. Internal Concrete Lining

*Note: The steel pipes is to be manufactured in accordance with BS 534 & BS 3601
Pipes of sizes and dimension can be manufactured upon request*

4. Spiral Pipe Forming

5. Hydrostatic Testing & End Forming

6. External Blasting

9. External Bitumen Coating

8. Priming

7. Internal Blasting

OUR PARTNERS

Our close working relationship with partnering consultants, suppliers and contractors enable us to take on mega projects. With our timely completion we have continuously gained the confidence of our customers. With the support of other related companies involved in construction, manufacturing, marketing and trading, we are ready to take on the challenge to meet the highest demand of our clients.
